To whom it may concern,

This letter is to serve as a professional reference for South East Commercial Kitchens.

We have contracted South East Commercial Kitchens to complete various works in the kitchens of The Honourable Society of the Middle Temple from purchase and installation of Frima cooking pans and Rational ovens to fabrication of bespoke hot servery counters.

I have always found them to be professional, experienced and knowledgeable and would highly recommend them to any prospective establishment that are looking to achieve excellent results in any aspect of kitchen fitting or refurbishment.

From the initial contact through to the final hand over they are thorough, punctual, competitively priced and able to understand the operational requirements of a busy commercial kitchen that turns over an average of 1500 covers per week.

We have never had any issues with any of the work that has been completed by South East Commercial Kitchens and have several projects in the development stage which they are consulting on including a future full kitchen refurbishment.

Please do not hesitate to contact me if you require further information.

Yours sincerely
