## ***To Whom it May Concern***

April 2020

From the start of our concept to construct a café, South East Commercial Kitchens provided valuable input towards the design and cost effectiveness of equipment.

Their plans and ideas convinced us to move ahead with the project.

They worked with us, and our caterer, to overcome any installation issues: e.g. they called in expertise to install an extraction system to fit to existing vents, which reduced the overall costs.

Managers from South East Commercial Kitchens were regularly on site to ensure that deadlines were met.

The high quality kitchen equipment and the modern look dining area fits well with our student cohort.

The café has been fully functioning for almost 12 months and there have been no problems with the equipment and the chefs are happy with the layout.

We highly recommend South East Commercial Kitchens.

Yours sincerely,

**Stephen Clarke**  
**Principal**
